

Melvin Thomas D

.NET Full Stack Developer

✉ melvinthomas.tech@gmail.com ☎ 7305566215 📍 Chennai 🔗 [Linkedin](#)

SUMMARY

.NET Full Stack Developer with ~2 years of experience in enterprise healthcare applications, specializing in ASP.NET Core, Angular, SQL Server, and Azure DevOps. Skilled in requirement analysis, client collaboration, secure API development, and Agile/Scrum delivery across the software development lifecycle.

TECHNICAL SKILLS

- **Frontend:** Angular, React, Blazor, HTML5, CSS3, JavaScript, Bootstrap, Razor Components
- **Backend:** C#, ASP.NET Core, Web API, Entity Framework, LINQ, REST APIs, JWT Authentication.
- **Database:** SQL Server, Stored Procedures, Query Optimization
- **DevOps & Tools:** Azure DevOps (CI/CD pipelines), Git, Swagger.
- **AI and Automation:** Model Context Protocol (MCP), Claude Skills, AI Agent Orchestration, n8n Workflow Automation, LLM and OpenAI Integration, Prompt Engineering, Retrieval-Augmented Generation (RAG)
- **Practices:** Object-Oriented Design, Code Review, Software Debugging.

PROJECTS

Enterprise Management System 05/2026 – 06/2026

Angular | ASP.NET Core Web API | SQL Server

- Developed a role-based web application with authentication, CRUD operations, and dashboard functionalities.
- Implemented REST APIs and database operations using ASP.NET Core, Entity Framework, and SQL Server.

AI Requirement Assistant

07/2026 – 08/2026

Angular | ASP.NET Core Web API | Azure OpenAI

- Built an AI-powered application to transform business requirements into user stories, acceptance criteria, and development tasks.
- Integrated AI services with secure APIs to streamline requirement analysis and documentation.

PROFESSIONAL EXPERIENCE

Grid Dynamics

Junior Software Developer (.NET Full Stack)

03/2025 | Chennai, India

- Developed and maintained enterprise healthcare insurance applications using Angular, Blazor, ASP.NET Core Web API, Entity Framework, and SQL Server.
- Built and enhanced REST APIs, authentication modules, and database functionalities with C#, LINQ, SQL Server, and JWT.
- Collaborated with U.S.-based stakeholders in an Agile/Scrum environment to deliver secure, scalable features.
- Configured and optimized Azure DevOps CI/CD pipelines, reducing release cycle time and improving deployment reliability.
- Provided bug fixing, unit testing, QA support, and release activities across the SDLC.

UI Intern

09/2024 – 02/2025 | Chennai, India

- Completed training in Angular, Blazor, ASP.NET technologies, and healthcare domain fundamentals.
- Earned Google Cloud Certified Specialist – Foundational Level certification.
- Successfully transitioned to a full-time Junior Software Developer role based on performance and learning progress.

CERTIFICATES

Google Cloud Certified Specialist – Foundational Level 

Demonstrated understanding of core Google Cloud services, cloud infrastructure, security, networking, and deployment fundamentals.

EDUCATION

Jeppiaar Institute of Technology, Anna University
Bachelor of Engineering (Computer Science and Engineering)

2020 – 2024 | Chennai, TamilNadu

CGPA: 8.7/10
